- 283. Unlisted Bryan money. Perhaps a unique piece, this relatively common cartwheel dollar has had the lower inscription (Gorham, Spaulding,?, removed so that that

portion appears blank. (This was done on several reported Zerbe pieces). On the reverse side an 1853 US \$1 gold piece has been professionally inserted. This is not crudely done - the coins appears to "belong" with the piece. Of major importance to the advanced Bryan collector. Min bid is \$1,000.

A few words should be said on behalf of
these early US Mint medals. In our opinion,
they are among the most under appreciated
and under valued series in American exo-
numia. Their artistry and medallic exec-
ution exceeds most all of our modern medals.
Their historical significance is immense
and yet they seem to engender little interest
outside of a small number of collectors.
However, next year should see the fruits of
Bob Julian's research on these medals and
his much anticipated work on US Mint Medals
through 1892 should be published. A very

predictable price rise should ensue.

We're sorry to be so "late" with the prices realized, but it took us some time to prepare the enclosed advertising matter for inclusion. As you can see, PCAC is now handling the entire medalllic product line of The Medalllic Art Co. of Danbury, Conn. We are most pleased with this affiliation as we consider Medalllic the premier producer of modern medals. Please pay special attention to Official Bicentennial Calendar Medal for 1976. The photograph simply does not do it justice! It is indeed an historic momento of our bicentennial celebration because of its official (ARBA) nature. It is a perfect gift item!

We are also pleased to announce that we have been selected to auction all of the NON-POLITICAL items from the J. Doyle DeWitt Collection which was bequeathed to the University of Hartford. Our Auction #20 will feature this material. Foremost among this offering will be an extremely rare specimen of Betts 556; the Germantown medal struck in silver. Also featured will be a choice specimen of the Palmetto Regiment medal in silver and a Mexican War Veterans shield.

In addition to the DeWitt material, we will also have a choice selection of early storecards which will include La.51 (C.Yale, Jr. & Co.); NY 626 (Edwin Parmele) and Ohio 13 (P.Evans). We also expect another nice run of scarce and rare transportation tokens. In short, we expect our next auction to be the best we have yet produced. We welcome consignments of choice material for inclusion in this super sale. Our auction fee is 20%. Reasonable minimums may be placed and there is no charge if this minimum is not achieved. We must receive all consignments for our next sale by Dec. 15th.

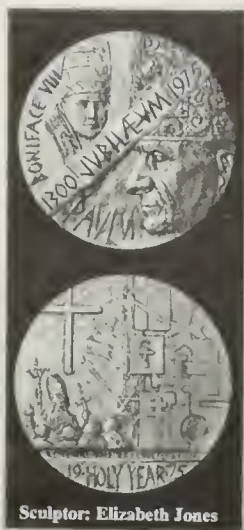

If the auction route is not your cup of tea, we also accept material on consignment for direct sale. Among the items we have recently sold via this method are an Andrew Johnson Indian Peace Medal in silver for \$1300.00; the Thomas Jefferson inaugural medal (DeWitt TJ 1800-1) for \$3,300 and yet another early official inaugural medal in gold for \$15,000 as well as many lesser items. If you have something you wish to consign or sell outright but don't know how to value it, please call and perhaps we may be able to help.

As the prices realized indicate, our Pittsburgh auction was a great success. Prices on the choice material were uniformly high with the Kansas civil war token shocking the audience when it was sold for \$437.00 with an underbid of \$430.00. The show itself let something to be desired because of relatively poor attendance. This can be attributed to the rather poor location which will be remedied next year when the Jamboree will be held in Philadelphia. As always, however, the show was well run by Duane Feisel and those who did attend found it most rewarding.

How To Lose Your Table at ANA by Sticking Your Foot in Your Mouth Dept:
It strikes me that the decision to hold successive ANA Conventions in Canada and Hawaii was not well thought out. The travel time and expense required would seem to eliminate many non-affluent collectors from attending these two shows. Why not write the ANA Board Members and express your opinion? While these conventions are somewhat in the future, it is still not too early to try and change things.

As 1975 begins to draw to a close, Gail, Erika and I wish you a most happy holiday season and a new year which will fulfill all of your most hopeful expectations.

Sincerely
Joe Levine

As with any works of sculpture, these medals are made to be touched, handled and displayed for a true sense of their artistic importance with no damage to the finish or danger to the resale value.
